Subject: Calendar Mailing

In spite of a lot of hard work by ISI and PMG (calendar provider) to eliminate duplicate mailings; we had duplicate mailings of calendars. It appears that two types of members may be affected; couples and new members. For couples it is due to the attempt to insure couples receive same "ask request" and for new members it was because we had sent them different letter than the rest of the file to welcome them. It appears that the "dedup" process was not successful.

Please let the members know that we pay for one per member; additional cost of duplicates is borne by the vendor.
